THE DEPARTMENTS.

GOVERNMENT RECEIPTS to-day: Internal revenue, \$305,286.54; customs, \$566,305.07.

THE NATIONAL BANK NOTES received for redemption to-day amounted to \$122,000.

SECRETARY WINDOM has accepted the resignation of J. W. Hedrick as colonel of the New Orleans mint.

MR. G. D. HATCH, storekeeper in the custodian's office, Treasury Department, has been appointed inspector of coal for that office, with additional compensation.

IT IS ESTIMATED by Chief Fletcher, of the Loan Division of the Treasury Department, that there are about \$30,000,000 registered five per cent. bonds outstanding.

THE GOVERNMENT PAPER MILL at East Pepper, Mass., where the internal revenue stamps are manufactured, articles suspended operations and all the employees furloughed.

THE SECRET SERVICE DIVISION of the Treasury has information of the arrest, in Tennessee, yesterday, of Mabe M. Merrill, John C. Wade, James Edwards and William L. Tindale. Merrill and Paxton were subsequently rescued from the United States deputy marshals at Morristown, Tenn.

SECRETARY WINDOM was at the Interior Department to-day, and held a long consultation with Secretary Kirkwood. As they spent some time in the office of the commissioner of Railroads, it is presumed their conversation touched upon a probable successor to Theophilus French, as auditor of railroad accounts. Secretary Kirkwood states that there are a number of applicants for the position, but as the President controls the appointment, nothing can be done until the latter recovers.

AN ORDER IN THE INTEREST OF THE GOVERNMENT.—Chief Clerk Power, of the Treasury, who was recently put in charge of the custodian's office, has inaugurated a new system in regard to the purchase of supplies for the Treasury Department, which will save money to the Government and give no possible chance for favoritism. All dealers who wish to compete are notified by advertisement to register their names and the character of their business in the superintendent's office, and when articles are required, the necessity for which could not be anticipated in the regular advertisement for proposals, a blank form of bid is sent to each merchant dealing in the article desired, so as to give them all an opportunity to put in a bid. The old system was to purchase all external supplies from the regular contractor. Now new bids will be invited for all extra supplies from time to time, just as they are needed.

PERSONAL.
BALTIMORE'S Stock Exchange will subscribe \$5,000 to the Garfield fund.

MR. L. GARDNER and wife, and Miss Carrie McLaughlin, of this city, are at Atlantic City.

WILLIAM STIRLING, formerly of the firm of Stirling, Ahrens & Co., Baltimore, died in that city yesterday.

SECOND VICE-PRESIDENT WILLIAM KEENE, of the Baltimore and Ohio Railroad Company, yesterday started for Europe.

GEN. GRANT has been suffering from fever and ague at Long Branch, and Mrs. Grant is still quite feeble from the effects of sickness contracted in Mexico.

MR. JULIUS LANSBURGH, the popular carpet man, has gone to New York and Boston, to lay in his stock of carpets for the coming season. He will be gone several weeks, as he intends to extend his visit to the principal carpet manufacturers of the East.

THEODORE THOMAS commenced his series of summer concerts in the Exposition building at Chicago on Monday evening. There were six thousand persons present at the first concert, which, if continued, will make his five weeks' engagement very profitable.

DR. CARL RUDOLPH POWALKY died in this city at 8:15 a. m. yesterday of heart disease, at his residence, 13 Sixth street. He was for many years connected with the publication of the Nautical Almanac, having been previously for seventeen years in charge of the issue of the Astronomical Year Book at Berlin.

GEN. J. A. HILLER, photographer for the United States survey (Major J. W. Powell in charge), has left Washington for New Mexico, where he goes to photograph a portion of that wild but beautiful country. Jack, as he is familiarly called by his friends, is one of the most accomplished artists in his line in the country. Aside from being a good photographer, Jack is also said to be able to ride a mule as well as any Mormon Yahoo in Utah.

MR. BLAINE'S DISPATCH to Minister Secretary Blaine sent the following cable this morning:
To Lord, Minister, London:
The President's condition this morning is much better than at any time since he was wounded. Temperature normal; respiration nearly normal, and pulse ninety-six; appetite improving; pains in feet and legs greatly diminished. Weather very warm, but President's room kept as cool as desired.

WISCONSIN GREENBACK NOMINATIONS.
The Wisconsin Greenbackers held their state convention at Watertown, Wis., yesterday, and named the following ticket: For Governor, E. P. Allis, of Milwaukee; Lieutenant-Governor, Daniel Giddings, of Fond Du Lac; Secretary of State, Wilson H. Hopkins, of Chippewa Falls; State Treasurer, Gerhart Sommers, of Sheboygan.

THE ENORMOUS DEMAND FOR HYPODERMIC SYRINGES.
"We do a large business in the sale of syringes for hypodermic injections of morphine," said a large New York dealer in surgical instruments to a reporter.
"To physicians, of course?" interrogatively remarked the scribe.
"Oh, no, by no means; the sale is comparatively small to them. The general use of opium is a growing evil, and more women than men are addicted to it. Those who have become accustomed to it cannot live without it. The relief it gives from pain is instantaneous, but it lasts only two or three hours. We sell the hypodermic syringes to persons in every sort of life, from the fine lady who conceals her carriage to the poor landlady with a basket of linen on her arm. How so wide a knowledge of the subcutaneous application of morphine has spread about I am at a loss to conjecture, but even young school misses make use of it."

AND YET NOT HAPPY.
The Union Passenger Railway Company of Philadelphia has earned upon its capital of \$435,000 to divide \$87,500 for the last six months. This is at the rate of about forty per cent per annum, and yet this company, it is stated, is the greatest monopoly of them all, and its managers are the most determined opponents of five-cent fares.

DOING SPLENDIDLY,

Is the Doctors' Verdict To-Day

To-Day's Bulletins the Best Yet.

The President's Pulse Normal and his Weakness all Bosh.
Vice-President Arthur Leaves for Home.

The Bulletin to Cabinet Officers.
The following is a copy of the bulletin sent to each of the Cabinet officers this morning:

EXECUTIVE MANSION,
July 13, 7:30 a. m.
The abatement of the unfavorable symptoms which made their appearance Monday afternoon and evening has steadily continued, and at this time (7:30 a. m., Wednesday) his pulse is 90; temperature, 98.5°, or normal, and respiration, 20, or within one of normal. The fever has subsided entirely. The President takes readily all nourishment allowed by the physicians, and suffers no inconvenience from it. His sleep was more natural and more refreshing than that of any other night.

J. STANLEY BROWN,
Private Secretary.
The Best Bulletin Yet.
The first regular bulletin this morning was as follows:

EXECUTIVE MANSION,
July 13, 8:30 a. m.
The President is doing well this morning. Pulse, 90; temperature, 98.5°; respiration, 20. His gradual progress toward recovery is manifest, and thus far without serious complications.

D. W. BLISS,
J. J. WOODWARD,
J. K. BARNES,
ROBERT REYBURN.
The Noon Bulletin.
EXECUTIVE MANSION,
July 13, 1 p. m.

The President's condition continues favorable. Pulse, 94; temperature, 100.6°; respiration, 22.

D. W. BLISS,
J. K. BARNES,
J. J. WOODWARD,
ROBERT REYBURN.
Dr. Reyburn Jubilant.

"That's the best bulletin yet," said Dr. Reyburn to a critic man, as he left the White House. "The pulse is lower than at any time since the injury, and the temperature is down to normal. Indeed, all the symptoms are encouraging."

"Doctor, it is reported that the President is getting very weak," began THE CRITIC. "That's all bosh," interrupted the doctor; "he is better and stronger now than at any time since the shooting."

Mr. Crump Says the President is "Bully."
"Billy" Crump remained at the President's bedside from 10 p. m. until 9 o'clock this morning, when he came down to the front door to take a look at the outside world before retiring to rest. He was in the best of spirits, and started a highland fling on the tiled floor.

"How's the President this morning?" inquired Sergeant Dinsmore.
"Bully!" was the laconic answer, and the happy steward stamped long enough in his dance to say that the President was a little restless in the early part of the night, but they spooned him off and he fell into a deep, natural sleep, and awoke very much refreshed.

The President's Best Day.
The bulletin issued at 7 o'clock last evening gave the President's condition as follows: Pulse, 104, temperature, 102.4°, respiration, 24.

All the physicians join in the statement that yesterday was the best day for the President has had since the injury. He takes nourishment in constantly increasing quantities, and his stomach performs its functions well. He is quiet and comfortable and says himself he feels better and stronger. Dr. Reyburn states that so far there has not been the slightest indication of pyrexia, and while he does not regard the danger from secondary hemorrhage as passed, he looks upon its occurrence as extremely unlikely.

The President's Rum.
Col. Rockwell, in speaking of the rum that the President had taken, said: "Sam Ward sent it, and he said in a letter to me that it was given to him by Earl Lounsbury—I think that was the name. It was shipped to England from Jamaica in 1794, and it is not likely that it was much of an infant then. So it is perfectly safe to say that it is at least an hundred years old. It came in a quaint old bottle, that looked ancient enough, at any rate. It is a splendid liquor. There is no doubt about that."

Dr. Bliss' Happy Statement of the Case.
Dr. Bliss stated this afternoon that the President is now doing better than he has done yet. His very much better to-day. His pulse is lower than it has been at any time since the reaction, and the temperature is down to normal for the first time. It isn't true that the President is getting weaker and gradually sinking. Such reports are gotten up by persons outside who don't know anything about the case.

Not in the Least Alarming.
There was a liberal, healthy discharge of pus from the wound this morning. There are also healing signs about the wound. The President's condition, continued Dr. Bliss, is such as to warrant the opinion that reparation is established along the granulated surface of the wound. Dr. Bliss stated further that there was

No Danger from Secondary Hemorrhage.
Pyrexia may set in at any time, but there are no apprehensions on that score. The President has taken more nourishment to-day than on any previous day. We gave him a little woodcock and toast, and he seemed to relish it very much. His allowance of milk is now increased to four ounces every two hours. A teaspoonful of old rum is added to the milk.

Dr. Bliss summed it up by saying that the President was doing splendidly, and the physicians feel highly gratified over his condition.

Vice-President Arthur Leaves for New York.
Vice-President Arthur left this morning for New York, to join his family. The President's condition no longer makes it necessary for the Vice-President to remain constantly in this city. He will not leave New York, however, and will hold himself in readiness to respond immediately to any call of the Cabinet notifying him of any unfavorable change in the President's health. Arrangements have also been made to keep him promptly and constantly advised of the President's condition.

MR. AND MRS. EUGENE HALE are spending the month of July at Bethlehem, Pa.

OHIO DEMOCRATS.

The Convention at Columbus.
COLUMBUS, O., July 13.—The Democratic State Convention was called to order at 11 a. m. to-day by John G. Thompson, chairman of the central committee. The preliminary organization was announced as follows: Chairman, J. Edwin Speer, of Cincinnati; secretary, W. J. Gleason, of Cleveland; assistant secretaries, Thomas Wetzel, of Lancaster, and George Maul, of Sandusky. Mr. Speer addressed the convention briefly. The various preliminary committees were then announced.

Another Death from Hydrophobia.
CHICAGO, July 13.—Michael McMahon, a laborer, died at the county hospital last night of hydrophobia. He was slightly bitten eight weeks ago by a little house-dog, which gave no evidence of Madness at the time, nor has it since become rabid. McMahon's convulsions were so terrible that it required eight men to hold him.

Midhat Pasha Relieved.
LONDON, July 12.—A Constantinople dispatch to the Times says: "The sultan entertained the idea of having the judgment in the case of the alleged murderers of Abdul Hamid nullified by the Court of Cassation, but it was represented to him that this would involve the necessity of a new trial and danger of further scandal. The Sultan then decided to commute the death sentence."

What One Cigar Cost.
SAN FRANCISCO, July 13.—Fifteen acres of wheat were destroyed near San Jose yesterday by a passenger on a coach throwing a lighted cigar on the dry grass on the roadside. All the people in the vicinity turned out to prevent the spread of the flames from the grain fields, extending the whole length of the valley.

Cutting the Passenger Rates.
NEW YORK, July 13.—The Pennsylvania Railroad has joined in the general reduction of passenger rates to the West. Otherwise the situation remains the same.

Prostrations by the Heat.
DAYTON, O., July 13.—Prostrations from the heat continue alarmingly frequent here. Six cases have resulted fatally during the past twenty-four hours.

Current Rumors in Wall Street.
[Special Dispatch to THE CRITIC.]
NEW YORK, July 13.—The points given out upon the market last night were mostly bearish, but some of the more confident bulls were of the impression that certain stocks of the better class, such as were not affected by the railroad war, would probably advance this morning.

This list would include the Pacific railroads, the Grangers, the Southwestern, and the Telegraph, but a good many conservative people believe the market will settle considerably yet, and in the meantime there will be a sale on the rallies. The Vanderbilt is about as headstrong as anybody else, and from this party comes predictions of prices below 120 for Lake Shore to-day; below par for Michigan, and points to sell Canada Southern for 50 within a fortnight.

Railroad men say that the low passenger rates are likely to continue all summer. Superintendent Butler of the New York Central, says the difficulties and trouble all arises from differences over per centages, and there must finally be a readjustment on the basis of the actual business done by each road in 1880.

The motion by the Attorney-General at Kingston, N. Y., will be pressed to-day for the appointment of a Manhattan receiver, but it is intimated by insiders, that there will be nothing decided to the detriment of the Metropolitan or Metropolitan Companies, and certain matters have probably been arranged in advance.

The net earnings the past six months have increased 20 per cent. over the previous six months, so says the new Vice-President.

Windsor last night, and believes in another bull market in a day or two. In the meantime he says, "Let the boys sell em; they will soon want them back."

Gould was not in town yesterday, but his brokers sprinkled the market liberally with the bull market.
